

BECOME A NAT GEO CERTIFIED EDUCATOR

Connect with National Geographic, GENI and Like-Minded Educators

Do you believe in empowering students to think like explorers? In building geographic competency across disciplines? In inspiring students to be global thinkers who can change the world? If so, you are a perfect candidate to become a Nat Geo Certified Educator.

Join a professional development program for formal and informal PK-12 grade educators working to inspire the next generation of explorers, conservationists, and global citizens. Enjoy professional recognition and development; join a community of like-minded educators and education outreach professionals and build relationships at National Geographic; and access exclusive Nat Geo resources and perks.

Complete three phases to become a NatGeo Certified Educator:

Phase 1 – Participate in an in-person or on-line workshop built around the NatGeo Learning Framework, which describes the attitudes, skills, and knowledge sets that encourage students to think like explorers.

Phase 2 – Implement two activities designed to promote your students' global and geographic learning.

Phase 3 – Share a capstone project detailing your activities, get feedback, and exchange ideas.

Please JOIN US for a

Phase I Nat Geo Certified Educator Workshop
